Getting Started

If you are new to www.sartcorsonline.com and the Import Gateway, here is a quick summary of the initial steps:

1. You must sign an 'Import Gateway Software License'. This is currently acquired through the SART contact below.

   January 2012 Contact Info for Clinics for License

   Kelley Jefferson
   Executive Administrator
   The Society of Assisted Reproductive Technology
   1209 Montgomery Highway
   Birmingham, Alabama 35216
   Email to: kjefferson@asrm.org

2. Once this agreement is processed, you should be contacted by SART Technical Support to launch the staging website. The staging website is a test website to familiarize yourself with navigating the site and importing data to SART. You may have to be proactive in communicating with SART Technical Support if they have not contacted you.

   January 2012 Contact Info for Clinics for Staging and Live Website

   Ethan Wantman
   Email to: ethan@sartcors.com
   SART Technical Support
   (877) SART-CAL(L)   (877-727-8225)
   www.sartcorsonline.com

3. Once you are comfortable with the staging website and are ready to go live, you can contact SART Technical Support again. They will walk you through the steps of this process.
