# RESource Update Modifications

Version 1.04.2362  
User & Admin Instruction

Release for WNYIVF

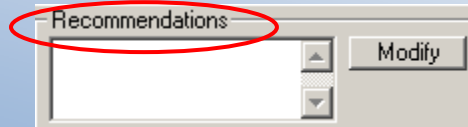

LabLog Report for Admin when setting of Labcorp interface with RESource

- LabCorp now requires copies of all test results to complete testing an installation.
- Enhanced report for printing external lab results (i.e. Labcorp).
- The enhanced report will eliminate the need for printing result screens which is cumbersome.

**NOTE:** [SA] : In the semen analysis window under the icon 

In  [ Id: 85653 ] aaa, aaa window:

The removal of the Recommendations field is **NOT** in this release. It will be in the next.

The screenshot shows a software window with a title bar containing a semen analysis icon, the text "[ Id: 85653 ]", and "aaa, aaa". Below the title bar is a text input field labeled "Recommendations", which is circled in red. To the right of the input field is a "Modify" button. The input field is currently empty.
